

Every Detroit Neighborhood • **Becoming Green**

Development is coming. Let's do it right.

We know jobs are needed. And blight has to go away. Improving the quality of life in all neighborhoods can happen in a way that protects our personal health, land and natural resources. Development without displacement is possible. Let us show you how.

What is an ecodistrict?

An ecodistrict is a neighborhood or district with a broad commitment to accelerate neighborhood-scale sustainability where members commit to achieving ambitious performance goals, guide district investment and community action, and track their results over time.

- *Neighborhood-scale development*
- *Community-driven*
- *Focuses on Basic Needs*
- *Solutions for today & tomorrow*

Thinking of establishing an ecodistrict?

Our team of sustainability, engagement and development experts are ready to help your community establish an ecodistrict. Visit our website or send us an email to get more information or start the application process.
